

LUTHER BURBANK'S EXCLUSIVE FRUIT TREE CREATIONS

To get the Genuine Burbank Strain you are safe dealing with us---the Distributer of Burbank Creations

A NEW APPLE—THE GOLDRIDGE

Tree a much stronger grower than its parent, the Newtown Pippin. Fruit large, smooth and as perfect as if turned in a lathe; pale yellow with a crimson blush on sunny side; quality equal to Newtown Pippin with an added aromatic fragrance; ripens earlier along with the Baldwin, Greening and other early Winter apples; unusually handsome fruit.

50c each; 10 for \$4.00.

THE NEW BURBANK "DISCOVERY" PLUM

Extract from Luther Burbank's Field Notes: "Ripe July 10th. New. Good bearer. Earlier than Climax (an early production), as large or nearly so and infinitely better in quality. Sweet, rich, firm flesh, rosy crimson. Cling. Skin rich, deep crimson. July 18th—great keeper. July 25th—still as good as ever."

Limited number of trees. Introductory price, each 50c; 10 for \$4.00.

NEW HYBRID PLUM—"BEAUTY"

Tree a most remarkable vigorous upright grower. Never-failing bearer of full crops of the beautiful oval crimson fruit two or more inches in diameter. Flesh light crimson, shaded amber.

35c each; 10 for \$3.00

New Hybrid Plum—"Geewhiz"

One of the most delicious of the many seedlings of the hybrid "America," which, with "Gold," was introduced in 1898. This and "Gold," originated by Mr. Burbank, were the first hybrids ever produced by crossing the American and Japanese species of plums. Both have proved as hardy in the far north as the natives, and being much larger and handsomer, have been widely grown. "Geewhiz," while inheriting all their good qualities, is larger, handsomer and incomparably more delicious. No plum now known surpasses it in quality.

35c each; \$3.00 for ten.

The "Gaviota" Plum

This beautiful plum is extremely valuable, both as a table and shipping fruit.

Fruit ripens from July 15th to August 5th, and is of a deep rosy purple color; flesh honey yellow, being very fragrant and sweet to the pit, which is so small that the fruit can be called almost stoneless.

30c each; \$2.50 per ten.

"Formosa" Plum

Unusually large, thick, healthy, light green foliage; strong, hard, wiry wood; blooms with the "Burbank" and "Abundance" and always escapes spring frost, and always bears profusely, even when continuous rainy weather prevents full pollination in most other plums. No disease has ever found lodgment with the "Formosa." The fruit is of uniform size, averaging about six inches in circumference one way to eight the other. Fruit yellow, with a pale bloom until nearly ripe, turning to a clear rich red. Flesh pale yellow, unusually firm, sweet, rich, delicious, with a delightful apricot flavor, nearly freestone. "Formosa" has been thoroughly tested for its keeping qualities, which are unequalled.

This is the plum which commands the ex-

tra price; and this extra price means extra profits to you.

35c each; \$2.50 for ten; \$20.00 per 100.

The "Wickson" Plum

Originated by Luther Burbank. Widely grown and most popular plum of the well-known types in California.

Color deep cherry red, flesh amber tint, very juicy. Pit small, flavor very agreeable. Splendid shipper.

30c each; \$2.50 per ten. 100 for \$20.00.

The Burbank Plum

Introduced a number of years ago. One of the most widely grown plums.

Large, nearly globular; fruit bright cherry red, mottled with yellow; flesh yellow, juicy and sweet and very firm, making it one of the best for long shipments. Tree unusually strong grower.

35c each; \$2.50 for ten; 100 for \$20.00.

The Satsuma Plum

An older plum introduction of Mr. Burbank. Fruit averages about 2½ inches in diameter, nearly round, with dark red surface under a thick bloom; flesh purplish red; small pit.

35c each; \$3.00 for ten.

The "Climax" Plum

One of the earlier plums introduced by Mr. Burbank, which is grown by a multitude of fruit growers.

Large, very early, heart-shaped, deep red; flesh yellow.

35c each; \$2.50 for ten; \$20.00 per 100.

Santa Rosa Plum

The Santa Rosa Plum received a Gold Medal at the Lewis and Clark Exposition, with special mention for its great size and beauty. Its value as a shipping plum is now very well known.

It is a fine grower, the wood is very tough and the limbs will not break. It is a sure, regular bearer and bears always most abundantly. It does not have any off years. The fruit runs remarkably fine, even in size, and astonishingly smooth and clear of any defects. It is beautiful, delicious and a very good carrier to Eastern markets. It will keep well in hot weather for a week after it is ripe, so there is no occasion to pick it half ripe in order to ship.

40c each; \$3.00 for ten. \$25.00 per 100.

A New Hybrid Plum—"Choice"

(American Seedling)

Tree enormous upright grower and great bearer.

Fruit globular, above two inches in diameter, pure lemon yellow, clingstone. Flesh, golden yellow, firm, rich, subacid, superlatively handsome, extra good keeper and no doubt will be one of the best of plums for shipping as well as one of the hardiest trees known. Ripe July 25th to August 5th.

No hardy plum ever before offered has equal quality, size, beauty, hardiness and productiveness in combination.

75c each; \$5.00 for ten.
